RECENT PROJECTS

DockIt
Custom CRM designed for a nationally-based restoration company to organize all assignment details from start to finish
- Worked with client requests, emulated a single-page web application with Rails, established ERD with appropriate relationships, designed responsive CRM layout
- *Technologies:* HTML/CSS, Ruby on Rails, JavaScript, Bootstrap, GitHub

Swolemates
Pseudo-game where users can create an account, log their workouts, and challenge other users with their results
- Optimized user profile with Bootstrap tabs, organized and led team meetings, acted as primary content consultant
- *Technologies:* HTML/CSS, Ruby on Rails, JavaScript, jQuery, Heroku, GitHub

FellowshipAdvisor
Mimics TripAdvisor with a Tolkien twist and user account functionality
- Created original project theme, delegated tasks, led Scrums, integrated REST API
- *Technologies:* HTML/CSS, Ruby on Rails, JavaScript, jQuery, Bootstrap, Heroku, GitHub

.paws()
Aesthetically improved version of Craigslist where users can browse and add pets for adoption programmed with MEAN stack
- Organized page layout to display data cleanly, developed schema, wrote logic to "like" pets, created responsive design
- *Technologies:* HTML/CSS, JS, jQuery, Angular, Node.js, Bootstrap, Heroku, GitHub

WORK HISTORY

Web Designer
www.nataliahess.com (August 2015 – Present)
- Formatted main website using HTML and CSS. Managed marketing materials and social media to generate business and increase online following three-fold.

Programming Fundamentals Tutor
Independent (September 2016 – Present)
- Taught JavaScript core concepts (data types, iterators, objects) and basic algorithm solving strategies.

Assistant Manager
Voltage (March 2016 – September 2016)
- Drafted design concepts, took accurate measurements, and assembled products with precision. Worked in a collaborative environment under the instruction of Executive Director of Stanford Creative Ignition Lab/Founder of The Crucible.
- MIG welder, TIG welder, pyrotechnics, plasma cutter, other metalworking tools

Account Executive
Yelp (January 2016 – April 2016)
- Managed a pipeline of 100+ accounts on Salesforce. Exceeded weekly sales quotas through creative and strategic problem solving. Developed a custom email template that increased lead responses from 1 to 40 emails per day that is still in use by the company.
- Top sales team in Q4 2015 and Q1 2016
